Officials Examine New Paving Devices

Mayor and City Engineer Go to Minneapolis to Study Conditions. Mayor Maloney and City Engineer Etnyre have gone to Minneapolis to make a further inquiry concerning the use of asphalt as a filler for the new Broadway brick pavement. A majority of the property owners have signified their desire to have the asphalt used, and both the mayor and city engineer were favorably impressed when they went to Chicago by orders of the council to investigate it. But they were still not satisfied. Minneapolis was selected as a point where some useful information could be secured for the reason that a large section of paving was laid there a year or two ago in which the asphalt was used and where cement was also used plentifully for the same purpose. The thermal conditions at Minneapolis are more nearly equal to those in Council Bluffs, with the difference being still greater in the extremes of heat and cold. If the asphalt stands the strain there better than cement it will be the means of ending the attitude of doubt here.

Honey Creek Drain is Pushed by Board

Petitioners Against Drainage Ditch Turned Down by the County Board. Yesterday was the day set for hearing the objections, and there were a large number of the farmers interested present. Those favoring the ditch were greatly in majority, and argued earnestly for its establishment. The board agreed with them and held the petition to be sufficient. A number of claims for damage were filed by farmers whose lands would be utilized for the right of way of the canal. The auditor was instructed to appoint appraisers to determine the damages.

S.S.S. FOR BLOOD POISON. A great many medicines used in treating Contagious Blood Poison are composed largely of mercury and potash, and are intended to dry up or remove the humiliating outward symptoms. But such treatment cannot cure the disease, and its continued use will often so weaken and disorganize the stomach as to make a nervous wreck of the patient. And too, when these mineral medicines are left off the smoldering poison takes on new life, and soon the old symptoms of ulcerated mouth and throat, brown, scaly blotches, falling hair, sores and ulcers, etc., return with increased virulence. S.S.S. cures Contagious Blood Poison by purifying the blood and keeping the stomach and digestive members in perfect condition all the while by its fine tonic effects. S.S.S. is a purely vegetable remedy, made entirely of roots, herbs and barks of recognized-virtue as blood purifiers. S.S.S. cures on the principle that not only must the poison be removed from the blood, but also the circulation must be enriched and vitalized with nourishing powers. S.S.S. is known everywhere as the greatest of all blood purifiers and a safe, certain cure for Contagious Blood Poison. Home treatment Book and medical advice free. S.S.S. is for sale at drug stores.
